“ *I will always remember you reminding us all at church what time to be there on Sunday and Wed night...you were such a precious man I'm blessed to have known and loved. You always asked how Danny and the girls were doing. You always told me that you were praying for Danny when he was a fireman. Those prayers were answered and Danny came home every shift...My heart breaks for your Mom and family...We will see you again and get those great hugs.We love you and will always remember you.*
