“ I worked with Don at walmart for a few years he was the toughest person I know I tried to show him the easy way of doing in electronics,he was stubborn and always wanted to do things his way and when he didn't won't to listen to anyone he would cut his hearing adieu off but he did have alot of stories to tell.

“ Don we only knew you for a short part of your 94 years and we consider it a privilege to have been a small part of your life. You gave us the best son-in-law one could ever have hoped for, which in turn blessed us with not only a amazing husband for our daughter but wonderful grand and great grand kids.

Don I always enjoyed our conversations, you were always ready and willing to share your wisdom and life experiences. I remember the day you told me how you meticulous maintained the floors at Wal-Mart, as you told the story the pride, your eyes gleamed because you knew that you were being who God created you to be which always unmistakably, no matter how small the task, was to do the best you could ever do. You are the person God created you to be. I considered myself a better person after each conversation.

I always admired your adventuresome spirit, ready to take on a project and do it the best way possible.

Your tobacco barn project amazed me, you bought it while you were in the autumn of your life,(when most are sitting in rocking chairs,) but not you! You started rebuilding it, piece by piece from an old barn into a home with all your creative knowledge, and never ending and never stop will to accomplish...made me think "just how inspirational you truly are."

*We know you are now in a better place and you will be missed!
Love,*

Paula and Bill Allen
