“ Aunt Donna's Medical condition came to a big surprise to me when no one in our family has been diagnosed with breast cancer. She and well really my Uncle Bobby were very quiet people and even though I am 47 years old now I can honestly say I really don't feel like I ever really knew them. They helped make my Christmas's as a child unforgettable despite my life as a child was hard. I will never forget the love they put into me by being the people they were and how they impacted my life. I love you Aunt Donna and will be seeing you someday when God calls me home.

“ I was soooo sorry to see online that my friend Donna Sumner had passed away. I didn't know until today (Thursday) and it was to late to come see the family. We went all through Grammar and CCHS together. Donna was always so kind and we were friends. This makes me sad inside. I will be praying for her family in the days ahead. I am soooo sorry for your loss. God be with you and give you comfort and strength. Donna..... this candle is for you my friend. May your light shine forever. ❤️
