“ *Glenna Gail Brooks was my mother. I am her daughter Tasha. I miss her so very much and my brother Bradley, too. My Mom fought hard & suffered and survived so much during her life and had us kids when she was so young. Through every hard time all of us went through, my mother was loved as the beautiful woman she was. She had a family and she had friends and it ripped our hearts out that she chose to leave this world the way she wanted...by not disclosing her illnesses to any of us. My Mom no longer has to suffer or struggle or be without true love but I'm selfish, I want her back here with us. Eternal heartache as long as I am breathing. You have never been forgotten, Momma.*
